MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski,
14 February 1978

4. Discussed the problems of informing the two Select Committees about Presidential decisions on intelligence. Obtained his agreement that his staff would provide oral briefings to the Committees on such Presidential decisions. We could not provide written ones either precis or full text. I found out that a briefing had already been given on PD ☐ but none had been given on PD ☐ and that I would inform the Committees that his staff would arrange to do that.
